INTERACTIVE CME DINNER SYMPOSIUM
Overview
In the past few years, significant progress has been made in the treatment of chronic hepatitis C virus (HCV). Highly effective direct-acting antivirals (DAAs) and additional ones in development offer favorable safety profiles and high cure rates for most patients. Certain populations, however, pose a significant challenge to treatment success. These difficult-to-treat patients require clinicians to continually update their knowledge about the various HCV therapies and management strategies. During this program, expert faculty will discuss the latest advances in HCV therapy and strategies to optimize outcomes for populations that remain at risk for treatment failure. The interactive case-based format is intended to help clinicians integrate scientific advances into real-world practice settings.

Learning Objectives
Upon successful completion of this educational activity, participants should be better able to:
- Review the efficacies, indications, and safety profiles of new and emerging direct-acting antiviral combinations for the treatment of HCV.
- Assess factors that may lead to treatment failure in patients receiving direct-acting antiviral combinations.
- Apply expert guidance and recent clinical trial data to optimize treatment outcomes for patients with HCV.
- Integrate guideline recommendations and clinical data of HCV treatments into patient management plans.

Target Audience
The intended audience for the activities is gastroenterologists and other health care professionals involved in the treatment of patients with HCV.

Saturday, May 21, 2016
Hilton San Diego Bayfront
Sapphire Ballroom ABCD
Level 4 • San Diego, CA

6:00 PM – 6:30 PM Registration and Dinner
6:30 PM – 6:40 PM Introduction and Overview
Nancy Reau, MD
6:40 PM – 7:05 PM Updates on Current HCV Treatments
Hashem B. El-Serag, MD, MPH
7:05 PM – 7:20 PM \(\text{CASE CHOICE}\) Retreatment of Patients with DAA Failure
Brian L. Pearlman, MD & Nancy Reau, MD
7:20 PM – 7:35 PM \(\text{CASE CHOICE}\) HCV and Kidney Disease
Brian L. Pearlman, MD & Nancy Reau, MD
7:35 PM – 7:50 PM \(\text{CASE CHOICE}\) HCV Infection in High-risk Settings
Brian L. Pearlman, MD & Nancy Reau, MD
7:50 PM – 8:10 PM HCV Treatment: What’s on the Horizon?
Paul Kwo, MD
8:10 PM – 8:15 PM Posttest
Nancy Reau, MD
8:15 PM – 8:30 PM Question & Answer
Nancy Reau, MD
